

‘The Year of Activation’

Jonette Crowley and the Center for Creative Consciousness

Join us for our new workshops— that change everything!

Opening Your Quantum Brain: Evolving into an Awakened Human

One-day workshop with Jonette

“For spiritual growth you must first activate your heart, then your brain, and finally your DNA.”

For the past year Jonette has been studying the brain changes necessary for us to get to the next step of our spiritual evolution. She has worked with doctors who have studied her enhanced brain waves. During this workshop Jonette transmits instantaneous brain activations that create measurable right brain opening in all who are present.

Our goal in this one-day class is to teach you to open your creative, intuitive and wholistic right brain and to build a permanent bridge across both hemispheres. This gives you the experience of whole brain coherence, all part of evolving your 'Quantum Brain.' At this level your mind learns to process holistically, holographically, and beyond time/space— in short, your brain becomes a fully functioning partner in your spiritual evolution, as it was always meant to be.

- You have greater access to KNOWING
- You experience whole-brain coherence
- You trust yourself to a higher degree
- You become more interconnected to Nature and the higher realms
- You begin to transcend what seemed to be issues before
